Allowable Subject Matter

4. Claims 1-9, 23-44 and 53-61 are allowed.

5. The following is an examiner's statement of reasons for allowance:

A liquid crystal display apparatus comprising: a liquid crystal layer held between a pair of substrates, at least one thereof being transparent; a plurality of line wirings and a plurality of column wirings disposed on one of the substrates; and first active elements in intersections of the plurality of line wirings and the plurality of column wirings, wherein an image is displayed by writing image data in pixels disposed in a matrix form through the first active elements, preset writing is executed on a full surface of a screen in synchronization with a frame signal, the image is made visible by intermittently lighting an illuminator, both polarities, positive and negative, are displayed in one frame period, a period obtained by subtracting a preset displaying period of each line from the one frame period is substantially equally distributed between positive polarity displaying and negative polarity displaying of one line, and then displaying is carried out.

The cited references on PTO 892 fail to either individually anticipate or individually as well as in combination render obviousness, underlined above claim.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
